OLD WILL SOON BE MADE NEW

These old aluminum pots and pans which have been contributed to the defense of America by Putnam county citizens, will soon be on their way into new airplanes and bombers which will help defend America against the dictator nations. In addition to this pile of old aluminum, there are other communities in the county which have collected the pots and pans and these will all be gathered up this week and forwarded to Terre Haute where several counties will pile their old aluminum and from there it will go to the aluminum factories and from there it will go directly to factories where the fighting aircraft are made.

Saddle Club Grows Fast In Popularity

CLUB RANCH PROVES ONE OF COUNTY'S MOST ENTERTAINING SPOTS

The Putnam County Saddle Club is rapidly becoming one of the most popular organizations in this section of the state, as evidenced by the increasing interest in the get-out-of-door move started by several county residents who find great enjoyment in horses.

Since the club acquired its new home—the Saddle Club ranch—west of Greencastle, it has grown in membership by leaps and bounds. Approximately sixty persons are members of the club and scores of others find that for real entertainment and sport an afternoon or evening at the Putnam County Saddle Club ranch fills the bill completely.

This summer the ranch has more than proved a real center for riders. Putnam county equestrians have some twenty-five or thirty horses on the ranch, while other club members keep their animals nearer home and ride them to the ranch for group rides.

Breakfast rides are seemingly the most popular for many local residents, who almost weekly take a long ride to some scenic place in the county where they cook their meal.

Horse trading and buying has returned again as a result of the members' interest. It is reported that almost daily some member of the club is either buying or selling one or more horses. Some own three or four horses and when one member of the family goes for a ride, it is not necessary to ride tandem, the whole family has an animal apiece.

Greencastle youngsters find the Saddle Club the greatest spot on earth, since it provides a place for them to keep and ride their ponies.

Officers of the club are John Earnshaw, president, and Martha Hurst, secretary-treasurer.

Reds Rush Harvest In Ukraine Sector

RUSSIANS ATTEMPT TO FINISH HARVEST BEFORE NAZIS TAKE GRAIN FIELDS

VICHY, France, July 29 (UP)—Neutral diplomatic sources asserted today that unless the Germans capture the Russian Ukraine by mid-August they will find nothing but bare fields in that great granary whose rich harvests were regarded as a prime objective in the Nazi attack on Russia.

Informants said the harvest had begun and that it would be completed within two weeks.

As fast as wheat and other grain are cut they are threshed and sent eastward for safe storage.

French sources reported that the retreat of the Russian forces from the Ukrainian border had been orderly and that the Germans for the last three days had been engaged in gigantic regrouping movements in preparation for a new drive.

STATE PUBLIC SERVICE GROUP HOLDS HEARING

INDIANAPOLIS, July 29 (UP)—The state public service commission today opened a public hearing on petitions which seek merger of the Northern Indiana Public Service Co. and the Gary Heat, Light and Water Co.

Originally set for July 22, the hearing was scheduled for today in a meeting of the commission yesterday. Northern Indiana petitioned June 12 for permission to purchase stock of the Gary Electric and Gas Co., holding company for Gary Heat, at a cost of \$10,000,000.

The petition also asked approval of a proposed cash payment of \$7,042,000, a serial no. issue of \$5,000,000 to help finance the cash payment, and the issuance of 370,000 shares of no par common stock to the seller.

A petition of the Gary utility asked approval of the transfer of all its assets as a "liquidating dividend" upon its liquidation and dissolution.

GREENCASTLE RUNS 99-DEGREE TEMPERATURE

HEAT WAVE BLASTS COUNTY AS CITY RESIDENTS SEARCH FOR COOL SPOTS

DISCONTINUE ROAD WORK

Terrific Heat Endangers Corn Yield In Putnam County; Forecast Continued Warm Temperature

Speaking medically and surgically, Greencastle and vicinity "ran a temperature" again yesterday, and, this morning, showed indications of repeating the record of yesterday and the day before.

At 2 o'clock, Monday, the thermometer reading was 99 degrees, which was "high" for Sunday.

At 3 o'clock, the reading was 100 degrees, but by that time the sun's beams were approaching the place where the thermometer is hung, and that may have influenced the heat gauge somewhat.

House occupants are seeking every feasible way to live more comfortably, adapting their menus to hot weather, using cold drinks, eating sparingly of the heat-producing foods, dressing as coolly as they can, and avoiding excessive exercise when feasible.

Birds, too, are hot. They bathe often and thoroughly, a few days ago a robin being observed sitting flat in the deepest part of a bird bath, saturating its feathers with the cool water. Two other robins splashed in the bath at the same time, showering one another as much as boys in swimming holes splatter each other.

The weather indications for the remainder of today and for Wednesday are: "Continued warm and humid."

The men working on the National road grading and construction jobs are being favored by the bosses, some of the work being stopped entirely during the hottest hours of the day. Office work in the city and elsewhere is at a minimum.

In other communities, and on farms, men are collapsing from the heat.

The southern Indiana melon crop is suffering from the lack of rain. Corn, almost at its peak of growth in Putnam county, is not suffering yet from dryness of the soil but from the heat and dryness of the air, which is affecting the leaves and (Continued from Page Two)

"Miss Nina Cook, Miss Ova Daniel and Miss Ruth Stewart will leave Sunday in Miss Cook's Ford coupe for Niagara Falls and other points on a two weeks' vacation," said the newspaper.

The Cloverdale American Legion post was in charge of the funeral services for Lee Roy Collins, first Cloverdale township man losing his life in the late war. He was in the Rainbow division. Members of the Greencastle Legion post assisted in the services. Frank A. Ashworth was in charge of the firing squad, which included Ensign, Roberts, Jordan, Fritz, Moran, Estep, Strange and Oakley, Burl Hurst and Gerald Handy were the buglers. Paul Grimes and Raymond Lady were color guards. Ralph Pierce was color bearer.

MRS. JONES IS APPOINTED LICENSE HEAD

SECRETARY OF STATE TUCKER MAKES CHOICE FOR PUTNAM AUTO LICENSE BUREAU

SUCCEEDS MRS. McFERRAN

Retiring Agent and Husband Will Occupy Farm Recently Bought. Many Plates Sold.

James Tucker, secretary of state of Indiana, under whose supervision the automobile license department comes, after a period of ten years under the supervision of the governor of Indiana, has named Mrs. Clara Sharp Jones, as distributor for Putnam county. Mrs. Jones will succeed Mrs. McFerran who has held it for the past several years, or during most of the time of the administration of Governor Townsend and Gov. Schricker until the present change.

Prior to the administration of Gov. McNutt who centralized all departments in his office, the automobile license department was under the supervision of the secretary of state. The centralization law placed everything directly in the hands of Gov. McNutt, where it remained until the 1941 session of the legislature which replaced that law. Later the Indiana Supreme Court knocked most of it out and then it was decided that the old law was effective and thus the auto license bureau went back to the secretary of state.

Mr. Tucker has about completed the naming of all license bureau managers throughout Indiana and the announcement of the appointment of Mrs. Jones will please many in Putnam county as she is well known, and well qualified for the place. She served as deputy auditor with G. E. Ogles during his incumbency in that office.

Mrs. Lillie McFerran said this morning she welcomes her retirement from the position she has held since December 2, 1936. She and her husband, Albert McFerran, have bought a farm in Franklin township, which is two miles south and two miles west of Roachdale, or two miles north of the home of her parents, Mr. and Mrs. Glasco Britton, and they are now living on it, although remodeling work is in progress. She is anxious to retire from the auto license agency so that she can give all of her time to their farm home.

In the more than four years she has been auto license agent for Putnam county, Mrs. McFerran has sold approximately 25,000 pairs of passenger car plates and more than 5,000 pairs of truck plates. At an average of \$8 per pair, the receipts from the passenger car plates alone is approximately \$200,000.

The 4700 sets of 1941 auto plates originally sent to the local agency, have been sold and a start made on disposing of the additional 300 pairs recently sent her.

BULLETIN

A telegram from the Washington, D. C., office of the United Press, received by The Daily Banner this afternoon, quoted Senator Van Nuys as stating "no action as yet on the Greencastle postmaster's appointment."

This appointment has been expected since the senator's recent visit in Indianapolis during which time a number of friends of the various candidates for the postmastership of the local office called on the Hoosier senator. At that time he indicated an announcement regarding the appointment would be made upon his return to the nation's capital.

WILLKIE IN INDIANAPOLIS INDIANAPOLIS, July 29 (UP)—Wendell L. Willkie arrived in Indianapolis at 11:07 a. m. today by plane from San Francisco where he delivered a speech in support of President Roosevelt's foreign policy. The 1940 Republican presidential nominee was expected to leave immediately for Rushville on a vacation inspecting his five Rush county farms.

MILK PRICE MAY RISE INDIANAPOLIS, July 29 (UP)—The State Milk control board was expected today to approve a 30-cent per hundredweight increase in milk prices paid to farmers which would result in a rise of 1 cent a quart to capital city consumers.

War Flashes

VICHY, France, July 29 (UP)—Vice Premier Jean Darlan and Sotomatsu Kato, Japanese ambassador, today signed the formal political accord which provides for joint Vichy-Japanese "defense" of French Indo-China.

LONDON, July 29 (UP)—A few German planes dropped bombs at three places in eastern England during the night, the Air and Home Security Ministries said today. A few casualties and slight damage resulted.

LONDON, July 29 (UP)—Fighting continued throughout the night on the Nevel and Smolensk sectors of the Moscow front and the Zhitomir sector of the Kiev front, a Russian war communique said today.

Standard Oil Bars Products From Japs

RESULT OF JAP FREEZING ORDER AND CURTAILMENT OF TRANSPORT

TOKYO, July 29 (UP)—Japan admitted today that the Netherlands East Indies action in putting an embargo on exports to Japan was a serious blow, and newspapers chorused a demand for firm government action.

The government officially froze all Netherlands and Netherlands East Indies assets and the assets of Britain's Hong Kong as a further step in its retaliatory campaign against the United States and Great Britain.

TOKYO, July 29 (UP)—The Standard Oil Company stopped selling oil throughout Japan today as the result of the Japanese freezing order and an immediate curtailment of transport, already restricted, was expected to result.

Standard acted because of the impossibility of depositing receipts and remitting profits under the freezing order. Though it was believed possible that the suspension order might prove temporary, pending clarification of freezing regulations, the oil shortage was expected to be intensified at once.

Well informed quarters forecast a reduction in the already small number of taxicabs and private motor cars now operating in Tokyo, including those of the American embassy. The government had already reduced the daily gasoline allotment for taxicabs to seven gallons for August.

The National City Bank remained closed today while Finance Ministry officials checked its books under the freezing order. The bank holds about \$4,250,000 in American deposits, including more than \$2,000,000 belonging to American motion picture (Continued on Page Two)

CAPTURE GUN THIEVES

Denies Sponsoring Wheat Penalty Cut

OKLAHOMA DEMOCRAT SAYS HE HAS NOT SPONSORED BILL CUTTING PENALTY

WASHINGTON, July 29 (UP)—Rep. Victor Wickersham, D., Okla., said today he wanted to make it clear that he has not sponsored legislation cutting from 49 to 15 cents per bushel penalties on wheat grown in excess of government quotas.

Wickersham is the author of a measure approved in the House on July 22, exempting from the 49-cent penalty farmers who plant in excess of their acreage allotments but actually produce less than their normal yield because of a partial crop failure.

The legislation, granting relief to areas where abnormal weather conditions have interfered with crops, is now under consideration in the Senate. The bill, Wickersham said, has received approval of local, state and Federal AAA Department of Agriculture officials.

Wickersham said there is little likelihood of the House agriculture committee acting favorably on any measure, sponsored by other representatives, reducing the penalty payments.

SOVIET TROOPS HAND GERMANS HEAVY LOSSES

COUNTER-ATTACKS BY SOVIET PROVE TOO POWERFUL FOR GERMAN FORCES

NAZIS SEEK REORGANIZATION

Hitler's Motorized Forces Search For Weak Places In Russian Lines; Battle Increases

MOSCOW, July 29 (UP)—Russian forces are inflicting heavy losses on the Germans in a new series of determined counter-attacks at selected points of the front as the Germans seek to reorganize for a third offensive, a war communique said today.

It was asserted that in the Smolensk area of the Moscow front and the Zhitomir area of the Kiev front the German forces, still attacking in a vain attempt to find a weak spot, were being broken by tenacious and stubborn Russian resistance.

Their blitzkrieg armies bogged, the Germans resumed their attempts at mass raids of Moscow during the night.

A special communique said that between 140 and 150 German planes tried to break through the outer defense ring but only four or five of them got through to bomb the Moscow area indiscriminately, centering on residential districts.

Fires started by incendiary bombs were put out quickly, it was asserted, and the casualty toll was small.

Russian night fighter planes and anti-aircraft guns shot down nine of the raiding planes, the communique said, and no Russian planes were lost.

The day's first communique, like communiques of the last few days, indicated strongly that the Russians were not only holding their lines along the eastern front but were taking the initiative to an increasingly greater extent, striking hard and swiftly whenever the opportunity arose.

Further, both the air force and the navy remained active.

The communique said Russian planes, co-operating with land forces, raided big German troops concentrations yesterday and attacked grounded planes on German airfields.

Revised reports showed that 109 German planes were shot down Saturday.

Baltic coast defense forces and navy planes sank a German destroyer and two patrol ships, it was asserted, and it was admitted that one Russian destroyer had been lost.

The Dome News Agency reported in a Washington dispatch that Admiral Kichisaburo Nomura, Japanese ambassador, had ordered Minister Kaname Wakasugi, of the embassy staff, to return to Japan at once to report direct to the Foreign Office on the situation between Japan and the United States. The dispatch said that Wakasugi was expected to board the Asama Maru at San Francisco August 8.

SAN FRANCISCO, July 29 (UP)—The \$15,000,000 Japanese luxury liner Taiyuta Maru warily continued a policy of watchful waiting 105 miles offshore today, despite the assurance of the State Department that she would not be detained if she came into port.

There was no indication that at least eight other Japanese vessels have to beyond the three-mile limit, would come in today, although they had received the same assurance.

BATAVIA, NETHERLANDS EAST INDIES, July 29 (UP)—Suspension of The Netherlands East Indies-Japanese foreign exchange agreement will cost Japan 760,000 tons of crude oil and 546,000 tons of oil products a year unless the government authorizes exports by special license or a barter agreement can be effected, it was estimated today.

The Netherlands East Indies is one of Japan's chief sources for oil. The United States is the other.

These amounts would have been shipped under the agreement of last November which was automatically suspended by the suspension of the foreign exchange agreement.

During the first four months of 1941 Japan purchased from The Netherlands East Indies 29,600,000

guilders (\$14,000,000) worth of goods and The Netherlands East Indies bought from Japan 16,900,000 guilders (\$8,800,000) worth of goods.

Approximately forty ROTC trucks passing through Greencastle's business district yesterday afternoon, attracted the attention of scores of city residents. The trucks, according to some of the drivers, had taken a group of Purdue University's ROTC trainees to Camp Knox, Ky., for a six-weeks maneuvers period. They passed through Greencastle about a month and a half ago, loaded with Purdue students; however, this time the trucks were empty due to the fact that the trainees had gone directly from Camp Knox to their homes for the remainder of the summer.

Lone Star Heads National League

Bob Agnew's disputed home run with the sacks loaded last evening proved to be the margin of victory for the Lone Star diamondmen as they knocked the previously undefeated Putnamville lads from the coveted No. 1 spot in the National league standing.

It was Frank Huestis' 2-hit pitching performance that enabled the Lone Star ten to reach the top perch in the senior loop as his teammates proved to be somewhat shaky in their support, 4 errors being chalked up against them. Jones and Carling of Putnamville were credited with the Putters only safe blows of the evening.

Putnamville's four errors in the first four innings, proved very costly. Scoobee, young Put pitcher, allowed only one man to reach base after the fatal fourth inning.

A base on balls, a hit and an error allowed three runs to cross the plate for Put in the seventh but their rally fell short with the final count being 6-4.

VARIETY NINE WINS TEN-INNING MATCH

Greencastle's Variety Nine baseball squad won a 10-inning tussle at Bloomingdale Sunday, 6 to 5. Williams and Agnew took the spotlight of the game when both collected homers in the fourth and eighth frames respectively. Agnew scored the winning run of the game in the tenth when with one man down he beat out a hit to short, stole second, then scored when the pitcher tried to pick him off second and threw the ball into center field. McLean pitched seven innings and Taylor the last three for the locals. Williams caught. Greencastle chalked up ten hits and no errors while Bloomingdale got eight hits and committed five errors. The Variety lads play Coatesville Sunday afternoon.

Not Quite News

In connection with the recent "story" in The Daily Banner, concerning Rev. and Mrs. Inge, formerly known here and at Putnamville and mentioned by the Japanese Christian worker, Kagawa, speaking at Indianapolis a few weeks ago, is an item which appeared in the Putnam Banner, November 6, 1890. Rev. and Mrs. Inge were stationed at Hirotsaki in Japan many years in Christian educational work and induced a number of young Japanese to come to DePauw. The item of 1890 mentions a letter received by T. C. Hammond of Greencastle, who was the father of Isaac and Miss Kate Hammond now of Greencastle. He "received a letter from Aimaro Sato, of the Japanese legation at Washington, stating Chinda had been appointed consul from Japan to the United States, stationed at San Francisco. It will be remembered," the item continued, "that Chinda was one of the first four Japanese to come to DePauw University through the influence of Mrs. Hawley Inge. His wife is a sister to Sato." Although Chinda and Sato were Orientals, they are listed among the most noted graduates DePauw University has had.
